SPECIAL SESSION 3: Network and Communication Technology in Metaverse

With the development of multiple technologies such as media and hardware, the metaverse, as a live platform, is regarded as an important application for the next generation of people to socialize, entertain and work. The characteristics of immersive and super spatiotemporal are fascinating, but its demand of ultra-high bandwidth and low latency also put forward higher requirements for network and communication technology. This special issue provides such an opportunity to present emerging works for researchers and engineers in the field.

TOPICS

New Communication Network Sustainable Metaverse
Architecture for Metaverse

Multi person Collaborative
Metaverse Application

Resource Management of

Security and Privacy in
Metaverse

Artificial Intelligence-driven Metaverse Communication

Blockchain supported Metaverse Transaction

Metaverse Prototype and Experimental Platform

Energy-Saving Technology in Metaverse Service

SPECIAL SESSION ORGANIZERS

Shujie Yang, Associate Professor
Beijing University of Posts and
Telecommunications

Han Xiao, Postdoc Fellow
Beijing University of Posts and
Telecommunications

Zan Zhou, Postdoc Fellow
Beijing University of Posts and
Telecommunications

Hao Hao, Lecturer
Qilu University of Technology(Shandong
Academy of Sciences)

SUBMISSION INSTRUCTION

★★ Please submit your manuscript to <http://www.zmeeting.org/submission/hp3c2023> and select Track “Special Session 3: Network and Communication Technology in Metaverse”

Template Paper: Word: http://hp3c.net/acm_template.docx

Template Paper: LaTeX: <http://hp3c.net/LaTeX-Templates.zip>

Submission Instruction: <http://hp3c.net/sub.html>

Paper Submission Deadline:

March 5, 2023

Notification of Acceptance:

March 30, 2023

MAIN CONTACT PERSON

Dr. Yang
